WILDER'S
PATENT SALAMANDER SAFES,
NO. 25 MERCHANTS' ROW, BOSTON,
CORNER OF CHATHAM STREET.

The following letter from the proprietor of the
Chelsea Laundry, is a proof of the superior qual-
ities of this Safe!

CHELSEA, May 13, 1848.

Johs E. Wilder, Esq.—Dear Sir:—In reply
to your note, I have the pleasure to say that the
books and papers contained in the Safe I bought
of you, were perfectly legible and unjured by
fire at the burning of the Chelsea Laundry, on
the night of the 13th instant. There were pa-
pers and bank notes in the drawers of the Safe,
which had no appearance of having passed through
fire. The Safe was exposed to an intense heat for
several hours.

Respectfully yours,
STEPHEN SHIFFEY.

The following letter from the Superintendent
of the Maine Telegraph Company, is another
proof of the superiority of JOHN E. WIL-
DER'S Safe over all others:

BANGOR, Oct. 24, 1848.

Dear Sir:—Dear Sir:—The Safe I purchased of
you, was exposed to a great
degree of heat at the burning of the Telegraph
office in this city. It was in the fire six hours;
the books and papers were unburned, and the
damages to the Safe very trifling, although it fell
from the second story to the basement of the
building. The little repairs necessary to the
Safe, has been attended to, and we shall not need to
return it. It is still as good as new.

Respectfully yours,
JAMES EDDY.

In addition to the above certificates in favor of
these Safes, I received a Diploma and Silver
Medal for the best Safe held in Boston.

JOHN E. WHIDER,
MANUFACTURER AND PROPRIETOR,
23 Marchant's Row, Boston.

Mar. 6 Mo.

TO LET.

THE House and Stables in Thames-st., known as
the Galaxy estate, is one of the best in the
city, for any kind of business, and the house
is in ready repair for the largest family, or for
a Banking House. For terms, apply to

A small tenement in Poplars Street; immediate pos-
session given; apply to Jan. 15 R. F. LEE

DYSPEPSIA.

DR. HUTCHINGS'

VEGETABLE DYSPEPSIA BITTERS.

THE MOST POPULAR MEDICINE OF THE

AGE!

Used by Physicians of High standing.

These Bitters remove all morbid secretions,

purify the blood, give great tone and vigor to the

digestive organs, & put the system against all
diseases, & cure them with safety, at no
extra expense, and as low as is consist-
ent with efficacious safety.

The system adopted by Dr. Hutchings is
designed to ascertain precisely what it is
wants to do in a certain amount upon a life, and
to charge precisely that sum and no more; and
not to charge a larger premium than is actually
required for the purpose, with the promise of re-
turning, under the decisive name of profits or
dividends, the excess of premium which might
never have been taken. It is attended with
none of those vexatious contingencies which are
inseparable from the usual system; it is per-
fectly simple as well as uniform and equal in all
its operations.

Policies will be granted in the usual form, pay-
able after death, or upon the party's arriving at
the age of 49, 45, 50, 55, or 60, at his option;

in either case free from the claims of creditors.

The usual extra risks will be assumed by the
company at reasonable rates?

NEWPORT,

BY CRANSTON & NORMAN,
127 THAMES STREET.

MONDAY MORNING, APRIL 23, 1851.

TUNNEL AT BUFFALO.—The Buffalo Courier gives the following description of a gigantic undertaking near that city:

About the greatest object of interest in the vicinity of our city just now, is the Tunnel of the Water Works Company in the rock under the Erie Canal and the Black Rock Harbor to the Niagara river, about half a mile beyond the city line.

The perpendicular shaft or well is about eight feet in diameter and thirty feet deep, nearly the whole being through rock. From the bottom of the well starts the Tunnel, which is nearly circular, and about six and a half feet in diameter, running nearly horizontally towards the bed of the river, which is distant about three hundred and sixty feet. A slight slope upward, as the Tunnel advances, allows the water which pours into it from springs or crevices in the rock, to run back into the well out of the way of the workmen who are engaged incessantly, day and night, in blasting the rock. They have now proceeded about two hundred and eighty feet from the well, progressing at about two feet per day. Only four miners are able to work at once, changing three times during the twenty-four hours. The work is all done by lamp light.

The rock is soft and easily drilled and as yet no crevices have been found of sufficient magnitude to offer very considerable impediments to the work. The blasts are discharged about once in three hours, four charges being let off at once. When the holes are drilled to a sufficient depth and charged, all hands leave the hole, to avoid the deafening roar of the explosions, and as a matter of safety in case they should open any water course connecting with the river, in which event the Tunnel would be likely to fill with water uncomfortably fast to people so far away from the external world.

At the mouth of the well the noise of the blasts is like the discharge of heavy artillery, and the earth and buildings are considerably shaken by the shock. The water which accumulates in the well is removed by two large pumps driven by a steam engine, which is also used to lift the broken stone from the pit.

We have been requested to draw the attention of our readers to the Franklin Society, for the collection of specimens of all objects of the Natural History of Rhode Island. We cheerfully give place to the following circular.

The Providence Franklin Society, a scientific association of this City, was chartered by the Legislature in 1823, and has since been in active operation. It is the only institution of the kind in the State.

One of the objects of this Society is the collection and preservation in its Cabinet, for scientific purposes, of specimens of all objects of Natural History which are procurable. The Society has in addition to its general collections a very complete set of specimens illustrating the Geology and also the Botany of Rhode Island. The Zoological Department, so far as relates to our native animals, is exceedingly meager, nor is there within our State any other collection more rich.

The undersigned, therefore, as Chairman of the Zoological Department, and in behalf of the society, most respectfully solicit the cooperation of the citizens of Rhode Island, especially of those residing in the country, in supplying the above deficiency.

The Society would be glad to receive specimens, both male and female, of every animal, however humble or insignificant, which is to be found in our fields, forests or waters—Quadrupeds, Birds, Reptiles, Fishes, Insects—all, of whatever description, are alike desirable for a complete illustration of our Zoology.

Our country friends are daily in the habit of meeting with and often of capturing animals, which, if they would make the trouble of forwarding to us, would help to enrich our Cabinet. Many of these animals, that are thus taken by chance, are now rare, and would be of great value. A collector might search for them a long time in vain.

May we not therefore hope, that every one, whether of the city or county, who may be able to procure a specimen illustrative of our Zoology, will be induced to remember our Society, and forward it without delay to an Institution, in whose keeping it may be made to subserve the purposes of Science.

Specimens may be sent to J. Bush & Son, No. 44 and 45 South Main Street, or to the subscriber, G. L. COLLINS, M. D., No. 116 South Main Street.

N. B. Individuals having in their possession other objects of Natural History, which were procured in this State, or obtained from other sources, will confer a favor by bestowing them as above.

The role that elected Sumner.—The vote that elected Sumner yesterday was composed, it is supposed, of one hundred and twelve Free Soilers, seventy-nine Democrats and two Whigs.—Tract.

MR. WEBSTER AND THE COUNCIL.—The letter of Mr. Webster, in reply to Mr. Brinley, President of the Common Council.

COMMON COUNCIL ROOM, Boston, April 18, 1851. Dear Sir, I have the honor to transmit a certified copy of the preamble and resolutions, adopted by the unanimous vote of the Common Council of this city, at their session last evening, in reference to the refusal by the Board of Mayor and Aldermen, of the request of your friends for the use of Faneuil Hall.

One of the rules of the Common Council provides that "all cases the President may vote," I cheerfully availed myself of the privilege, by recording my "aye" on the passage of the preamble and resolutions: it is with pleasure that I comply with the instructions of the Board, to transmit to you an attested copy of them.

I remain, very sincerely, your friend and obedient servant, FRANCIS BRINLEY, Pres't.

Hon. Daniel Webster, Marshfield, Mass.

MARSHFIELD, Saturday Morning, April 19th, 1851. To Francis Brinley, Esq., President of the Common Council of the City of Boston: My Dear Sir—I have received your communication transmitting copies of the Preamble and Resolutions adopted on the 17th inst, by the unanimous vote of the body over which you preside.

I should be incapable of all just emotion, if I delayed a moment to express my grateful thanks for a proceeding so friendly and so honorable towards myself.

I wish my stay in this vicinity could be such as to afford me an opportunity of calling, individually, upon you, and all the members, and paying to each my personal regards.

There are, I know, members of the Council, who entertain political opinions different from my own, and this makes me the more anxious to signify, in an emphatic manner, my sense, not only of the kindness and courtesy, but also of the manliness and independence, which characterize their votes.

I shall not have the pleasure, during my present visit, of meeting the citizens of Boston.

What I have done, within the last year, to maintain the Union, and to preserve the relations of peace, friendly intercourse, commerce and business among all the States has not been done in a corner; and I shall not go into a corner to perform what may remain to be done. Nor shall I enter Faneuil Hall, till its gates shall be thrown open, wide open, not with impetuous recoil—"grating harsh thunder," but with "harmonious sound, on golden hinges moving," to let in, freely and to overflowing, you and your fellow citizens, and all men, of all parties, who are true to Union, as well as to Liberty; men, who can look around, on the faces of the Patriots which adorn the walls of that sacred Temple, draw in with their deepest breath, the appropriate inspiration, and stand upright and erect upon its pavement, in mind and heart elate, in the consciousness that they, too, are Americans, lovers of their country and not unworthy to follow in the footsteps of their great forefathers.

If Providence shall be pleased to spare my life and health till that hour comes, I shall meet the citizens of Boston, and my voice shall be heard, once more, in the Cradle of Liberty. Till then, again thanking you and the members of the Council, I bid you and them farewell!

DANIEL WEBSTER.

SHIPWRECK. The British schooner Thistle, bent, from Boston for Annapolis, N. S., went ashore in the gale of the 15th inst, on Gerrish Island, outside of Portsmouth harbor, and the vessel will be nearly a total loss. Her cargo has been saved in a damaged state.

Among the passengers, says the Portsmouth Messenger, "was a lady, resident in Boston, who had started on a visit to her friends in Nova Scotia, whom she had not visited for nine years. Being unable to save herself by the same means employed by the crew, she threw her infant overboard and was rejoiced to see it safe in the hands of one of the brave men. She then jumped over herself, and was rescued and got safely on shore; but the hardship she had undergone proved fatal, and although everything was done for her comfort she expired on Friday last."

READ THIS. George Thompson says in one of his Canadian speeches:

"I do not believe there is one minister in the United States who believes what he says. I know enough of ministers in that country to believe that they preach wilfully and designedly what they know to be false! These men deliberately go to their closets, and for purely political and pro-slavery purposes, write sermons for the Sabbath day which they all the while know to be palpably and damnable untrue!"

BY TELEGRAPH.

NEW YORK, 1 o'clock, P.M. Mr. Webster on arriving here yesterday found a despatch from President Fillmore requiring his presence at Washington. He will, therefore leave without delay.

Sir H. Bulwer is seriously indisposed.

FROM MEXICO.—We have received from Mexico the Monitor and "Le Trait de Union" to the 20th of March. The Journal Universal opposes the treaty of Tepautepetl; but the work continues on the Isthmus. The Trait de Union says that Government is at the end of its resources, and unable to make a loan. The other powers want to make one with the clergy. The negotiation was nearly closed at the departure of the mail, and the Treasury will be thus full for some days. The Diario de la Marca has news to April 1st. The only interesting advices are the resignation of the Minister of Finance, Senor Esteva, succeeded by Senor Aquino, Minister of Justice, aided by D. Miguel Ledro de Trada.

The President, Vas Concelos, of San Salvador, has been impeached for having made war on Guatemala without the sanction of Congress. The Vice President, Quirós, who belongs to the moderate or conservatory party, has taken the reins of Government, and concluded an arrangement for the settlement of the questions pending with Guatemala and the British Charge, Mr. Chatfield.

In consequence of this, Carreras had evacuated San Salvador, and the British blockade had been raised.

There has been a fearful earthquake in Costa Rica, which has destroyed the city of Alajuela, and much damaged the capital, San Jose; it occurred on the 24th ult. Alajuela is a town of 10,000 to 15,000 inhabitants.

FROM GUATEMALA, &c.—We have received some interesting intelligence from Costa Rica, Guatemala and San Salvador to a very late date. The election of Director of Nicaragua had resulted in the choice of Lareno Piernada, a distinguished statesman who represented the civil party.

BALTIMORE, 25th.—The ship Mary Hale, 102 days from Liverpool, which was supposed to have been lost, arrived here this morning.

WASHINGTON, April 24th.—The number of applications for hasty land averages about four hundred per day, and there are already ten thousand applications on file which have not yet been touched. Messrs. Kuhlman, and B. Washington, late of Virginia, have been appointed to clerkships in the Home Department. L. F. Thomas, formerly of Wisconsin, has been appointed to a clerkship in the Treasury Department. DeWitt D. Lawrence, (Dem.) Chief Clerk in the Patent Office, with a salary of \$1800, has been tendered his resignation, to take effect the 1st of July next. His successor has already been determined on.

WASHINGTON, 25th.—Farrar's bowling alley, on the corner of Missouri avenue and 6th street, together with 3 small buildings, were consumed by fire this morning. The loss in the ten-pen alley is \$3000; insured for \$700. The fire is believed to be the work of an incendiary.

Horatio N. King, formerly Democratic editor in Maine, has been promoted from a \$1400 clerkship to one of \$1650, in Post Office Department.

FROM THE COAST OF AFRICA.—By brig Haleyon, Verhees, from Monrovia, we have advices to Feb. 14. The H. left the U. S. brig Porpoise at Monrovia, from a cruise on the coast, to sail in a few days for Porto Praya.

The U. S. ship Portsmouth and brig Perry to windward.

The U. S. sloop of war Date sailed from Monrovia, Feb. 14th, for Porto Praya; after a cruise of four and a half months on the coast.

PITTSBURG, April 24th.—William Duff was found, on Wednesday, brutally murdered, near Freeport, Butler County. His twin brother James, with whom he was last seen, has been arrested on suspicion.

The New Orleans papers of the 21st have dates from Mexico to the 25th ult, stating that some Indians are ravaging Zacatecas, murdering men, and carrying off women and children. The French Minister has left the city of Mexico, for his own country, but is to return in October.

POLISH EMIGRANTS.—There was a meeting of Poles, resident in New York, on Wednesday evening, to adopt measures for relieving their distressed countrymen who arrived at that port a few days since, as well as to provide for some two hundred more who are on the eve of departure for this country.

ELECTION SHOES, at 22 Broad St., by M. FREEMAN & CO.

GREAT FIRE IN KINGSTON, CANADA.

The Oswego Times of Wednesday says that when the steamer Calcutta left Kingston, on Tuesday morning, a terrible fire was raging in the heart of that city. The telegraph informs us that forty houses were destroyed in the block bounded by Princess, Bagot, Wellington and Queen streets—the principal part of the city. The progress of the fire has been arrested.—The loss will be very heavy.

Few places have suffered more severely by fire than Kingston, and the fire on Tuesday must have been more destructive of valuable buildings than any that has occurred there for years.

Among the many kinds of medicines which have been offered to the public, Morse's Compound Syrup of yellow dock Root, stands first in advance of all. As a purifier of the blood it is unequalled by any preparation of Sarsaparilla which has ever been offered to the public, it completely renovates the system, there by driving from it, Rheumatism, Gout, Fever and Ague, nervous Headache, Sick Headache, Erysipelas, Pimples and Blotches on the face and all other diseases arising from an impure state of the blood. Be careful that you purchase the genuine article, put up in Oval Quart Bottles bearing the signature of Charles Morse Jr.

It may be had of C. G. Hazard, next door north of Post Office who is sole wholesale and retail Agent for Newport.

MUSICAL. Jenny Lind and suite arrived at Wheeling the afternoon of April 24th in the steamer Messenger, which left Cincinnati Tuesday night.—The steamer Buckeye State, which left piqued at the Messenger's changing her hour of departure to accommodate Jenny Lind, started on a race, and distanced the Messenger five hours.

MARRIED.

In this town on Saturday morning, in the Mill Street Church, by the Rev. Mr. Brooks, Mr. R. James Taylor and Miss Elizabeth Mansfield Lyon, second daughter of Joseph Lyon, Esq., all of this town.

At All Saints Church, New York, 23d inst, Rev. Wm. W. Olson, Rector of the Church of St. James the Less, Scarsdale, Westchester county, N. Y., and Miss Louisa Whittemore, daughter of Mr. Richard Whittemore, all of New York.

DIED.

In Providence, Thursday night last, Mrs. Betsey Marshall, widow of the late William Marshall, in the 46th year of her age.

Starling Intelligence.

SHERIFF'S SALE.

NEWPORT, sc., By virtue of an Execution issued out of the Clerk's Office of the Court of Common Pleas for the County of Newport, Nov. Term, 1850, in favor of Austin Sumner, John R. Brewer, and John R. Kimball of Boston in the County of Suffolk and State of Massachusetts, doing business in Boston as Merchants, under the firm and style of C. G. C. HAZARD'S.

POST, between Apothecaries' Hall, and Mr. Skinner's, S. Teas St., a small charted locket. The bidder will receive a suitable reward by leaving it in this office.

ENTHROLOGY: and the Phrenological Philosophy of Mesmerism and Magic, Esotericism; including a new Philosophy of Sleep and of Consciousness, with a review of the pretensions of Phrenomagnetism, Electro-Biology, &c., by J. Stanley Grimes, Professor of Medical Jurisprudence in the Casterton Medical College, &c.—revised and enlarged by W. G. Leader, for sale by

WILLIAM H. PEER,

99 Thames street.

NOTICE.

THE undersigned, having retired from the business of Druggist, &c., in which he has been engaged for many years past, would inform the public that he has this day relinquished all interest in the well-known establishment of Messrs. A. B. & D. Sande, in New York, having been with them about six years. Philip Caswell Jr., has been with me for the last six years and is thoroughly acquainted with the business in all its branches, at the old stand on Washington Square, New York. The undersigned takes this occasion to recommend his successors to the public, as fully competent and well-qualified, in all respects, to continue the business.

NEW BOOK BY Haworth, author of "The Slave," &c.

**THE CELEBRATED
OXYGENATED BITTERS,
Containing no Alcohol,
A SURE REMEDY FOR
DYSPEPSIA,

A GREAT NATIONAL PICTURE,

WASHINGTON.

FROM STEWART'S **UNEXCELED PAINTING**,

THE TRAITOR OF WASHINGTON, from the hand of an American, is considerably all that we

see it to be one of the most striking specimens of Art ever published, and a **COLLECTOR'S ITEM** of Washington.

The size of the picture is eight by ten feet, which will make a grand picture for the parlor, and should be in the hands of every American.

It is a great copy from Stewart's celebrated original Painting, now at the State House, Hartford, Conn.

It is finely engraved, and printed on superior paper. That it may be within the means of the subscriber to have the picture framed, the publisher has reduced the price to **\$100.**

All persons residing in the country, and in

any part of the United States, General Agents for
